

# ELECTION REPORT.

WE ARE ELECTED

to furnish the biggest bargains in

## Cook and Heating Stoves

the next 30 days ever known in Bates county, for we are elected

## To Move Dec. 1

to Grange building, southeast corner square. Now because of this election and for one mutual benefit come to Isaac Fowlers and buy Stoves and Hardware.

The fusion ticket swept Kansas. How is Judge DeArmond? He's all right.

Gold dollars ought to be plentiful now.

Hurrah for Georgia, Texas, and Missouri.

Judge DeArmond accept our congratulations.

That dream of John Duncan must have been the night-mare.

Shake your stockings and put the gold dollars in circulation.

Missouri is democratic on the state ticket by about 40,000.

If republicanism means good times wages ought to go up.

Later on the country will see its mistake in the election of McKinley.

Benton beats Judge Burton, of Nevada, for congress by a handsome majority.

The democrats, populists and free silver republicans did nobly in old Bates.

From all appearance the populist county ticket will be third in the race.

Geo. G. Vest, Missouri's little giant will succeed himself in the U. S. senate.

If the republican farmer can stand the low prices of produce the democrats will have to.

Let the republicans rejoice; if Bryan had won the democrats would have painted the town red.

Bryan made a brilliant canvass and his name will go down in history as one of America's greatest men.

E. R. Buck, who is with a Mc. Pacific construction crew in Kansas, came home Monday to cast his ballot for Bryan.

Judge Kemper will serve the people again for two years more as faithfully as he has the past two years.

If Atkeson don't get out of the middle-of-the road he is liable to get run over by the democratic band wagon.

Not a drunk man or a disturbance in this city election day. It was one of the most quiet and orderly elections ever held in this city.

Judge Sullens and Seth Cope, of New Home, called at the TIMES. Both were a little disturbed over the election.

Well boys, we'll shuffle the cards, roll up our sleeves and come again. Free silver, Bryan and American manhood will yet triumph.

The silver question will neither die nor be down. It will rise and come again and William Jennings Bryan will carry it to victory.

Providence, R. I. Nov. 2.—Miller & Vaughn, bankers and brokers made an assignment to day. Several well known speculators were caught for large amounts. The liabilities are estimated at \$15,000.

Chauncey I. Filley won't go to the U. S. senate from this state.

Where is Robt. E. Lewis? He's at Clinton consoling with Hermon Farris.

The populists of this county treated Judge DeArmond very nice. They also voted for Lon Stephens.

Judge Fuller the populist judge of our county court for the north district was defeated by Mr. Coleman.

Dan Keeling met with a peculiar and unfortunate accident Friday. He was driving a wagon with a calf in the bed. The animal made a lunge and got under the wagon seat. Mr. Keeling was thrown out violently and in his fall broke his right leg just above the knee.—Nevada Mail.

Pottsville, Pa., Nov. 2.—By an explosion of gas at Packer, No. 2 colliery, near Girardville, this afternoon sixteen men were burned to death and others seriously injured. The names of three of the killed are: John Holleran, Thomas Welsh, John McGrath all of Girardville.

Atlanta, Ga., Oct. 29.—Telegrams to the Journal from the various counties of the Third District, show that there will be practically no opposition to the suggestion that Chas. R. Crisp, youngest son of the late ex-Speaker Crisp, be named to fill out his father's unexpired term.

Stephen Johnson Field, Associate Justice of the Supreme Court of the United States, will be 80 years old on Nov. 4. He has been thirty three years on the bench, and might have retired ten years ago, because of the age limit, had he chosen to do so.

"Cut off both my legs if only my Emperor William wins the battle." These words were spoken in the battle of Villerjoff, 1870, by a wounded soldier, who is now living in great poverty in a German village. The Emperor, hearing recently of his straits and his patriotic utterance, sent him a present of 150 marks.

Charles A. Heagney, of Bound Brook, N. J., fell from the rear of a Lehigh Valley passenger train Thursday night as it was passing over Green's Bridge, N. J., and dropped to the tow-path of the canal below, a sheer fall of 250 feet. He is still alive in St. Luke's Hospital, South Bethlehem, Pa.

A man may dress as well as as his own good judgement and the assistance of an artistic tailor may elect. He may take his "tubs" but if his digestive organs are out of order, he will have an unwholesome appearance. His complexion and the whiteness of his eyes will have a yellowish cast. His tongue will be coated, appetite poor, his teeth rusty, his breath abominable. He is one big, unmistakable sign of constipation. The quickest, surest, easiest way is to take Doctor Pierce's Pleasant Pellets. They are made of refined, concentrated vegetable extracts. Nothing in the least harmful enters into their composition. They hunt down all impurities, and "make 'em move on." They are the product of many years' study and practice. Doctor Pierce cannot afford to put forth a worthless "cure." Send for a free sample. Address with 21 cents in one-cent stamps, to cover cost of mailing only, World's Dispensary Medical Association, Buffalo, N. Y., and get a free copy of the "People's Medical Adviser."

Old Bates is all O. K. Not a man lost. A special fight was made on sheriff Mudd, and in some townships he was traded, but the loyal democrats stood by their ticket and he came under the wire several lengths ahead.

General Weyler says he will not take the field, but if there is truth in the rumor that Gomez is surrounding Havana for a desperate attack he may change his mind; he may have to take to the fields to save his skin.—St. Louis Republic.

The navy must have every dollar needed to keep it efficient. But how much of the increase is to be used in buying powder to fire on Cuban vessels engaged in trading with American manufacturers?

When Americans tax themselves to support a navy they expect it to be used in upholding freedom, not in re-enforcing its enemies. The unholy alliance with Spain ought to be broken. Not another ounce of American powder ought to be burned in support of Spanish despotism.

Los Angeles, Cal., Nov. 2.—At Buena Park yesterday Harley R. Moon was killed by a bull. He undertook to lead the powerful beast out to pasture. The animal, which is harmless, suddenly knocked him down. Mr. Moon tried to rise but the beast charged upon his half prostrate form and pawed him furiously. Moon screamed in his agony, but no help was at hand, and his life was soon stamped out.

Many things are said and done in a heated campaign like the one just closed, which, though offensive at the time are credited to party enthusiasm and overlooked. But there are some acts which good citizens cannot palliate or condone. Among these was the attempt to egg Secretary of the Treasury, John G. Carlisle at his home in Covington, Ky., a like attempt on the democratic Presidential nominee, William J. Bryan, at Chicago, the burning of Mr. Palmer in effigy and the like. These are crimes against common decency and foreign to the American idea of manhood and cannot be too severely condemned by all good citizens.

More Powder for the Navy. New York World.

A call is made on the treasury for a million and a half additional for "naval supplies."

It is unfortunate that there is no effective law holding campaign committees responsible for their expenditures, and requiring an accounting and a statement under oath that they were straight. Brother Hanna swearing that all of his expenditures were legitimate and explaining how the funds were distributed would be a sight.—St. Louis Republic.

Harmless Warfare.

The latest scientific discovery made in connection with implements of war will be studied with peculiar joy and gratification by gallant patriots who are ready to lead their countrymen on to a glorious conflict for overthrowing election results.

Electrical engineers have been experimenting with schemes which are to protect men and ships alike in battle. It has been discovered that through a system of electro magnets bullets, and even cannon balls, will be led astray, so that whole regiments will be free from danger even under the heaviest fire. In one of the tests made, one of these magnets deflected a bullet twenty four yards in a range of two hundred and sixty yards. In a range of three thousand yards, with the dynamo two hundred yards in front of the target and forty yards to the side, every shot was diverted at least fourteen degrees.

The immediate conclusion reached was that a section of infantry exposed to a fire at three hundred yards would be comparatively safe with a dynamo operating on its flank, while a whole company would be in the same security a five hundred yards, and artillery fire would be rendered innocuous at one thousand yards.

War is to be deprived of its terrors. Bullets, shot and shell will become much less harmless than rotten eggs. How an army is to carry its protecting magnet from point to point has not been explained, but there is little doubt that it can be done with convenience.—St. Louis Republic.

Both Indicted.

London, Nov. 3.—The grand jury of the Clerkenwell Sessions, after consideration of the case of Mr and Mrs. W. M. Castle, of San Francisco, returned a true bill against both prisoners on a charge of shoplifting.

Sir Frank Lockwood, one of the counsel for the defense, informed a correspondent this morning that at a meeting of the counsel held at the chambers of Sir Edward Clark yesterday the lawyers arranged the details of a powerful defense.

Elisha Brown Murdered.

Fort Scott, Kas., Oct. 31.—The dead body of Elisha Brown, a young farmer, against whom Jack Apple, the notorious outlaw, now in the penitentiary, had sworn vengeance, was found in a field near Humboldt, today. Brown disclosed Apple's identity to the officers when he was a refugee living as a hired farmhand near this city. Apple and his friends swore to kill Brown. Brown was killed while driving on a country yesterday. A coroner's jury is endeavoring to locate the blame.

Lee's Mission.

Havana, Nov. 2.—Consul General Lee sailed yesterday for New York. Capt. Gen. Weyler sent an adjutant on board the steamer to bid him adieu. A number of Gen. Lee's personal friends also went on board the steamer to see him off.

Gen. Lee was very reserved as to the true motives of his voyage. The only thing he would say was that he would see President Cleveland in Washington.

More Men Employed.

Washington, D. C., Nov. 3.—About 2,100 employees have been added to the classified service by the issuance of an order by the President yesterday, directing that the rules of the navy department regulating employment of labor at the navy yards shall not be changed without the approval of the civil service commission. The ordinance department is placed in the classified service under civil service rules. The president's order also classified examiners in the department of justice and exempted from examination attorneys and assistant attorneys now in the department, whose main duties are connected with the management of cases in court.

A remarkable story is circulating through the Oklahoma press to the effect that Harry St. John is not dead, but that a dummy is buried in the coffin which was supposed to contain his remains, while he fled the country. The story gained such currency that the undertaker who laid the body out and certain friends of Mr. St. John who attended him in his sickness have signed a statement denouncing it as absurd and impossible. According to the story one Dr. Moroney, who attended the patient, placed him in a hypnotic state and gave him the appearance of one dead to those around him, but later revived him and substituted a dummy in the coffin for his body.

## Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are due to no actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

## The Exciting Times Are Over

—AND NOW TO BUSINESS—

## ...AND BUSINESS STRICTLY...

WE HEREWITH PRESENT TO YOU AN

## ARRAY OF BARGAINS

For Which we Defy Competition.

Prices on boots and shoes that will please you. We lead the procession in this line, a look will convince you of this fact. All goods go at prices advertised while they last.

## MODEL CLOTHING CO.,

North Side Square.

Shultz.

DIED, at the home of L. Y. Maxey on East Ft. Scott Street, on Sunday, Nov. 1, 1896; Gustavus Shultz, in the 76th year of his age.

Bro. Shultz was born in the city of Berlin, Prussia, July 15th, 1821, and when only 19 years of age, came to the United States. In 1844, he enlisted in the U. S. army for the period of five years, during which occurred the Mexican war, in which he participated. After his term of service had expired, he settled in Nicholas Co., Ky., and on Jan. 11th, 1851, he was married to Miss Eliza L. Mann, from which union two children were born. He was left a widower in 1855 and during the same year was married to Miss Elizabeth A. Mann, from which union four children were born, four of his six children still survive him.

He became a member of the Episcopal church in 1858, and remained such until June, 1895, when he was baptized by the writer and united with the Christian church in this city, and has led a good and pure life. He led a very active life until 1893, when failing health constrained him to seek rest in the Soldiers Home in Washington City. He left the Home about two years ago, since which time he has made his home with his children in this city.

A short funeral service was held at the house Nov. 2nd at 2 p. m., after which the body was borne to Oak Hill cemetery and laid to rest. His family and relatives have the sympathy of the entire community.

C. B. LOTSPEICH.

Card of Thanks.

SPRING, MO., Nov. 2, 1896.

With hearts filled with gratitude we wish to extend our earnest thanks to the neighbors and friends for their sympathy and contributions when our home, with its contents, was destroyed by fire Oct. 31th. While we yet sadly stood by the smoldering ruins many came and invited us to their homes; and when again we got a temporary shelter, the thoughtfulness and liberality with which our wants were supplied in every department, betokens a kindness of heart, which will never be forgotten by us. We wish, also, to especially thank, and recommend the old reliable Hartford Insurance Co. and its gentlemanly agent, Mr. Frank Allen for their promptness in paying every dollar of the insurance, thus enabling us to rebuild before the cold weather.

MR. AND MRS. J. W. HARSHAW.

An Important Difference.

To make it apparent to thousands, who think themselves ill, that they are not afflicted with any disease, but that the system simply needs cleansing, is to bring comfort home to their hearts, as a costive condition is easily cured by using Syrup of Figs. Manufactured by the California Fig Syrup Company only, and sold by all druggists.

Wall Street Object Lesson

Wall Street has been fighting on its side of the campaign on the single proposition that there is too much money in the country already and that it is anarchy and repudiation to demand the coinage of more. At the close of the campaign, on Oct. 29, this is the headline which appeared over the New York Journal's Wall Street reports:

MONEY UP TO 100 PER CENT. GREAT EXCITEMENT IN THE STOCK EXCHANGE—MARKET DEMORALIZED.

So it seems that, after all, their talk about the overproduction of money, the Wall Street people find cash so scarce that they are willing to promise a thousand dollars interest for the use of another thousand dollars.

Can men who are thus mistaken in judging their own business interests be trusted to conduct the Government and to dictate the business policies of the country?—Post Dispatch.

## The Only One To Stand the Test.

Rev. William Copp, whose father was a physician for over fifty years, in New Jersey, and who himself spent many years preparing for the practice of medicine, but subsequently entered the ministry of the M. E. Church, writes: "I am glad to testify that I have had analyzed all the sarsaparilla preparations known in the trade, but

AYER'S is the only one of them that I could recommend as a blood-purifier. Have given away hundreds of bottles of it, as I consider it the safest as well as the best to be had."—Wm. Copp, Pastor M. E. Church, Jackson, Miss.

AYER'S THE ONLY WORLD'S FAME Sarsaparilla

When in doubt, ask for Ayer's
